Insert open end of your handy 10 mm wrench (I tried 9, 11, & 12 mm wrench to compare the 10mm is best!) into the newly exposed space under the just opened 'cord-winding flap'.. Black Friday deals on great technology, and we've picked out the best of those, too! The square power brick looks similar to an Apple charger, and it's only slightly larger: Apple's charger is 3.

Flip open the 'cord-winding flap' nearest your left hand thumb which is gripping the case.. SearchBlox offers the best in search technology to enable search users find the correct information quickly and efficiently.. Searchblox for mac Power Cord For Mac AirNice Good Power Cord For Macbook AirPower Cord For Mac AirStephen's visionary suggestion to use 10 mm open end wrench (also called 10 mm 'combination ' wrench) proved an EASY way to pry open the casing! Hold the case w/ left hand; with 'cord-winding flaps' facing up.

Don't squeeze too tight or you'll crack the body Use a strongish knife blade, I used a cheap swiss army knife blade along the joins on all four sides.. Has your Mac's MagSafe adapter been worn down to the wires? You like, from Dropbox, to your iPad itself, to pretty much any third-party storage app.. Pinning the 'pointed end ' of wrench into corner under the flap which is about to become a PIVOT point gently rotate the wrench about 30 degrees away from you, UNTIL the outside rounded shoulder of the wrench comes into contact w/ the OTHER inside edge of the case! While keeping the wrench pinned firmly against its 'pivoting' corner CONTINUE trying to slowly rotate the wrench away from you You are now PRYING the case open! Saved me on this one Thanks,Stephen!- JJoslin (Detroit, Mich.. -south of Canadian borderline) Put adaptor in vice as described above & gently squeeze.. 2 inch thick SearchBlox is a high-performance Content Search Software designed for corporate intranets, websites, Portals and custom-applications.
